PROFESSIONAL PROFILE

Extensive experience in operational leadership and team management. Highly skilled in scientific writing, article proofreading, and data verification, with a proven track record of maintaining rigorous quality controls and meeting tight deadlines. Currently advancing expertise through a **PG Diploma in AI/ML in Healthcare Management** and studies in **Clinical Research**. Exceptional communicator adept at cross-functional coordination, resource allocation, and team training.

PROFESSIONAL TRAINING

PMP PHASE 2: INDUSTRY READY

PG Diploma in AI and ML in healthcare management

2025 — 2026

CliniLaunch Research Institute | Win In Life Academy

- Technical Training: Comprehensive training in Python, Machine learning and Deep Learning
- Soft Skills (VAS): Advanced training in Corporate Etiquette, Stakeholder Communication, Strong decision making skills, Team work

Scientific Writing

June 2024

- To learn about the various aspects of scientific writing.
- To understand the ways of proofreading and researching for journal articles

TECHNICAL EXPERTISE

Python basics	Biomedical Data processing
AL /ML	Clinical Regulations
Data Privacy	Medical Writing

ACADEMIC BACKGROUND

Bsc in Biochemistry – 2013-2016

University of Calcutta, Kolkata

Msc in Biochemistry-2016-2018

University of Calcutta, Kolkata

WORK EXPERIENCE

Operations cum Admin Executive | *Asia Rescue and Medical Services* (April 2025 – Present)

- **Data Management & Privacy:** Managed high-volume, sensitive medical and patient datasets while upholding strict confidentiality and data integrity standards.
- **Financial Pipeline Management:** Administered complex multi-party transaction pipelines involving hospital, provider, and doctor payouts for international insurance frameworks.
- **Cross-Functional Optimization:** Managed complex administrative dependencies under tight timelines, adapting to a 1-month delivery/notice cycle.

•

Centre Head | *ArcCreatif Solutions* (April 2024 – February 2025)

- **Workflow Automation & Tracking:** Engineered and maintained end-to-end organizational tracking pipelines inside Google Sheets to map daily team outputs to business objectives.
- **Resource Allocation & Training:** Conducted talent recruitment and structured operational training programs to upscale internal team competencies.
- **Stakeholder Feedback Architecture:** Handled client escalations and converted raw customer feedback into actionable insights for iterative workflow improvements.

•

Operations Manager / Team Leader – Operations | *Solutions A2D* (March 2021 – April 2024)

- **Content Quality Assurance:** Directed teams to audit, proofread, and deliver high-quality, plagiarism-free textual data assets under rigid client specifications.
- **Performance Metrics Tracking:** Supervised agile work allocation, aligned regional team leaders, and monitored data delivery timelines to ensure zero-error output.

•

Team Leader | *Amicis Hub* (February 2019 – February 2021)

- **Data Annotation Quality Control:** Managed a specialized 5-member team tasked with deep textual data validation, text processing, syntax checking, and multi-layered proofreading.
- **SLA Compliance:** Directed resource distribution and data verification to guarantee that text products adhered exactly to complex edge cases provided by clients.

•

Academic Content Writer | *ABSAS Solutions* (June 2018 – December 2018)

- **Structured Text Curation:** Generated dense, highly detailed research-focused data and content fields adhering to academic standards and rigorous authenticity testing.

•

KEY COMPETENCIES

- **AI/ML Application in Healthcare:** Knowledge of integrating artificial intelligence and machine learning models into medical data frameworks and healthcare systems.
- **Medical Data Handling & Privacy:** Experienced in managing sensitive patient data, hospital payments, and third-party provider transactions securely.
- **Scientific & Clinical Writing:** Proficient in research-driven content curation, journal article proofreading, and technical documentation.
- **Biochemistry & Lab Techniques:** Solid foundational understanding of biochemistry principles, protein database searches, and laboratory workflows.
